**Subject: Scheme for Providing Employment Opportunities to Scheduled Castes for the year 2026-27 (N).**

Memo

This scheme is proposed to be implemented in the State in the year 2026-27. The scheme in principle stands approved by the Government in the State Revenue Budget for the year 2026-27 for which an amount of Rs. 6000.00 lakh (Rs. Sixty Crore) is earmarked. It is a non-staff scheme and will be implemented with the help of the existing staff.

**1. Brief Background:-**

- Haryana has a prominent place in the livestock map of the country. The animal husbandry activities in the State play a pivotal role in the rural economy through a variety of contributions in the form of income generation, draft power, socio-economic up-liftment, employment avenues and better nutrition to human population through livestock products like milk, eggs, meat etc.
- In spite of being one of the smallest States of India (only 1.3% of total geographical area), Haryana possesses 2.1% of the bovine population of the country and the annual milk production of Haryana for the year 2024-25 is 125.93 Lakh tonnes which is more than 5.08 % of the nation's total milk production.
- Livestock sector in Haryana contributes about 46.34 percent to the agricultural GDP of the State and 7.15 percent of the total GDP of the State. It is also a major source of round the year employment and livelihood to small farmers and marginal farmers especially the women.
- There is vast potential of self-employment generation in this sector. The establishment of dairy units can generate substantial employment (direct or indirect). There is well-knit infrastructure of veterinary institutions throughout Haryana catering to the needs of the livestock owners for providing breeding, health and related services in the State. Further vicinity of Tricity and National Capital Region having ample marketing opportunities makes animal husbandry activities an attractive option for self-employment to the unemployed in the State.

**2. Justification for the Scheme:-**

- There are 19.29 lac Cattle and 43.68 lac buffaloes in the State as per the 2019 livestock census According to the livestock census 2019, about 16.62 lac families are rearing one or other type of livestock in the State out of which is approximately 21% population of livestock are reared by Scheduled Caste families which is generally resource poor.
- Occupation wise, out of total Scheduled Caste families, 44% exclusively depends on Animal Husbandry and Agriculture and 56% on other sectors including service sectors. Out of total livestock in the State, Scheduled Caste families possess 21% of the livestock. Scheduled Caste families contribute substantively in the Animal Husbandry sector and it is the major occupation of these families.

**Species-wise livestock with Scheduled Caste families in the State as per livestock census 2019**

| Species      | Total (in lac no.) | Owned by SCs (in lac no.) | Percentage ( % ) |
|--------------|--------------------|---------------------------|------------------|
| Bovine       | 62.92              | 10.07                     | 16.00            |
| Pigs         | 1.07               | 0.86                      | 82.50            |
| Sheep        | 2.87               | 2.00                      | 70.00            |
| Goat         | 3.35               | 2.08                      | 62.00            |
| Other        | 0.20               | 0.05                      | 25.00            |
| <b>Total</b> | <b>70.41</b>       | <b>15.06</b>              | <b>21.39</b>     |

The above table shows that out of the total livestock population, 62 to 82% of sheep, goat and pigs population are reared by Scheduled Caste families whereas 16% milch animals are being reared by them.

Under the Special Component Plan Schemes, which would provide direct benefit to the Scheduled Castes families, livestock units would be established for providing self-employment to these families. There is a target to establish 1500 Dairy, 100 Piggery and 800 Sheep/Goat units during the year 2026-27.

**3. Brief of Achievement during last three years:-**

| <b>Total</b>           | <b>9597</b> | <b>3014</b> | <b>2445</b>                 |

**4. Long term objectives:-**

- To Create self-employment opportunities for the Scheduled Castes families through animal husbandry activities
- To increase in milk, wool and meat production and overall productivity of livestock
- To up-gradate and develop valuable breeds/germplasm available in the State.
- To increase per Capita milk availability in the state.

**5. Medium term objectives:-**

- To provide gainful self-employment to the unemployed men/women of Scheduled Castes families.
- To raise socio-economic status and to provide socio-economic security to Scheduled Castes Antyodaya families of Haryana.
- To supplement the income of the families of the weaker sections.

**6. Description of Scheme:-**

This is a credit linked scheme with a primary objective of providing self-employment opportunities to Scheduled castes, the unemployed persons would be assisted by way of establishing Dairy units, Piggery units and Sheep/Goat units. There is a target to set up 2400 livestock units as per detailed given below:-

| Sr No | Type of unit                                            | Unit | Target |
|-------|---------------------------------------------------------|------|--------|
| i     | Mini dairy units of 2 or 3 Milch Animals (50 % Subsidy) | No.  | 1500   |
